

Gershow Recycling Donates Aluminum Scrap to Rocky Point Robotics Team

For the tenth year in a row, Gershow Recycling opened its Medford facility to local high school robotics teams participating in School-Business Partnerships of Long Island's (SBPLI) upcoming FIRST® (For Inspiration and Recognition of Science and Technology) Robotics Competition Long Island Regional to receive free aluminum scrap. Rocky Point was one of seven robotics teams that took advantage of the program and visited Gershow on December 8.

Members of the Rocky Point robotics team will use the aluminum scrap and their kit of parts to help them build a 120-pound robot. They will have six weeks to construct the robot and prepare for the upcoming competition. The Rocky Point robotics

team thanked Gershow for its support.

Gershow has nine locations in Brooklyn, New Hyde Park, Valley Stream, Freeport, Lindenhurst, Huntington Station, Bay Shore, Medford and Riverhead. For more information call (631) 289-6188 or visit www.gershow.com
